FARM HEADQUARTERS

Peoples Company is pleased to present this unique opportunity to own part of the formally known Pieper Bottom in Lee County, IA. This Absolute **No Reserve** Online Only Auction includes a diversified 18.63 acres m/l including 390,000 bushels of grain bin storage, two machine sheds, house, slurry storage and 12 hog buildings. **Bidding is live now and this Online Only Auction will end at 5:00 PM on Thursday, August 3, 2023.** Don't miss out on this great opportunity to expand your operation. **No Buyers Premium.**

GRAIN STORAGE FACILITY

Contains a 350,000 bushel Behlen grain bin set up that includes one 250,000 bu. grain bin built in 1984 and two 50,000 bu. bins constructed in 1990. There is a Zimmerman tower dryer that has not been used in eight years as the grain leg from dryer to the bins was having issues, and the tower dryer is not currently hooked up to gas. The operator currently dumps grain in the drive over pit on the south end and feeds into the big leg and secondary leg to feed all three large Behlen bins. The northeast 50,000 bin had new flooring and supports put in last year. All three large bins have concrete tunnel flooring and have recently been resealed. Located in between the three large bins and tower dryer are two 2,000 bu. wet holding hopper bins. These hopper bins have not been used for awhile. Located on the property are another four grain bins each 10,000 bu. in size and all built in 1984. There is a drive over semi/tractor scale located just northwest of the bin site that worked until 2018. Scale issue is unknown.

HOG BUILDINGS

There are a total of 12 hog buildings throughout the property varying from finishers, nurseries and farrowing buildings. These buildings were constructed from 1964 - 1990. The pits are 8ft deep and have been pumped periodically throughout the last few years. Remaining slurry in pits consist of solid manure and rain water. There is a Slurrystore System with an estimated capacity of 1.2 million gallons. The CAFO and Manure Management Plan for this site have been "mothballed", meaning the site is not currently in use. The new owner will need to work with the DNR to file the correct paperwork and pay the appropriate fees to get this site active once again. For more information, please contact the Washington, Iowa DNR Field Office at 319.653.2135 and reference Facility ID# 59711.

HOUSE & SHOP

There is a two story 1,352 SF home built in the 1900's. Straight west of the house, there is the shop with concrete floors & insulation. Dwellings, shop and other improvements will be sold "As Is, Where Is". The Time of Transfer Septic Inspection for the house has been completed and passed. A copy of the Septic Inspection can be found on the Peoples Company website.

With a little work you can put this site to work for you. The hog buildings on this site are already permitted and head space is there for renovations. A hard to come by operation is here to work for you.
