37 WELL USE STATUS: Indicate the use status of each well.

- 39 that operates for the purpose of irrigation, fire protection or emergency pumping.
- 40 • NOT IN USE: A well is "not in use" if the well does not meet the definition of "in use" above and has not been
- 41 sealed by a licensed well contractor.
- 42 • SEALED: A well is "sealed" if a licensed contractor has completely filled a well by pumping grout material
- 43 throughout the entire bore hole after removal of any obstructions from the well. A well is "capped" if it has a metal

- 45 "capped" well is not a "sealed" well.
- 46 If the well has been sealed by someone other than a licensed well contractor or a licensed well sealing contractor,
