

2. Current Permit Authorization – PLEASE REVIEW

The permittee is authorized to:

withdraw water from one Missouri River alluvial well about 100 feet deep, located near the center of the SE ¼ of Section 2, T85N, R46W, Monona County, Iowa, in the maximum quantity of 145 acre-feet per year at a maximum rate of 1200 gallons per minute during the period April 1 to September 30 of each year for irrigation of 145 acres of general farm crops on land generally described as the SE ¼ of Section 2, T85N, R46W, Monona County, Iowa.

3. Select One:

Option A: Modification

If any of the conditions described above in your current permit authorization (e.g., number and location of wells/intakes, pumping rate, or requested water allocation) have changed you will need to modify your permit.

Please list changes to current authorization:

I need to modify my permit.

Option B: Renewal - no cost

If the conditions described above in your current permit authorization (e.g., number and location of wells, pumping rate, or requested water allocation) have not changed, check the box below.

Please RENEW this water use permit WITHOUT changes to the authorization.

Certification

I certify the above information is true and correct to the best of my knowledge and that I will provide any additional information to the Department as may be requested.
