

IS YOUR FARM BEING MANAGED FOR **SUSTAINABILITY AND APPRECIATION?**

Call today for a **Sustainability Assessment** of your farm:

SOIL LOSS REPORT

To evaluate erosion under current farming practices.

PROFITABILITY MAPPING

To identify alternative management practices for the non-profitable acres.

FARM PRACTICE ASSESSMENT

To evaluate management practice options to improve organic matter, water infiltration, and nutrient cycling.

Schedule by September 1, 2019

AND SAVE \$500!

(regular full price assessment: \$1,000)

To schedule your assessment contact
Peoples Company Director of Sustainability
Mollie Aronowitz, AFM at 319.504.8182
or Mollie@PeoplesCompany.com.

INCREASED INCOME

SUSTAINABLE LAND MANAGEMENT

PREMIUM LAND VALUE

With the Peoples Company Land Management Approach, we can optimize annual income while managing for long-term appreciation. We focus on maximizing the productive acres while protecting the environmentally sensitive acres. We believe financial performance and environmental performance are linked.

If you are a progressive landowner focused on the long-term sustainability and appreciation of your farm, we want to manage your farm.

INTERESTED IN FREE COVER CROPS?

Cover crops help retain excess soil nutrients, prevent soil erosion and runoff, as well as increase organic matter, soil tilth and soil water holding capacity. To learn how you may qualify for free cover crops, go to **CoverCropInitiative.com**.
